EXPERIENCE

Bug Bounty Hunter

Talent.com

📅 11/2021 - 10/2022 📍 Badlapur

A Place for Recruiters & Job seekers

- Talent.com was one of the first program | participated to hunt for bugs & vulnerabilities. The IT Security Manager (Mr. Justin Jones) were really co-operative to me as I was a newbie. With many Duplicates, N/A & other failures | managed to submit few bugs which they considered as a threat to their company/business flow & paid really reasonable amount of bounties for each one

Bug Bounty HUnter

Hootsuite.com

📅 08/2022 - 09/2022 📍 Location

Manage Your All Social Media at One Place

- Participated in Public Bug Bounty Program from hootsuite & found two vulnerabilities with 1 as medium severity issue & second as low severity issue to the site. For this they rewarded me with amazon e-gift card.

Penetration Tester

Persistence.one

📅 09/2022 - 10/2022 📍 Badlapur

Liquidity Staking Hub

- Found this great program from coinmarketcap with the rank of #267 that time, & after little recon & tests | finally wrote an request message to the support team tor their permission on finding security issues & threats to their website & smart contracts luckily the CEO (Mr. Madhur Satija) was really great person who took security issues seriously & redirected me to their Bug Bounty Program which was already active on immunefi.com.With many difficulties & lack of skills on Smart Contracts & Blockchain Penetration Testing that time | somehow landed 3 bugs & outta that only one was accepted as low severity issue.
